INTRODUCTION.

The late Benson J. Lossing, the distinguished American historian, whose valuable library, consisting of rare books and autographs, has been sold in the Anderson Galleries, was an accomplished artist as well as a scholarly writer. It was his custom to visit the scenes of important historical events and make careful drawings, which were used to illustrate his histories. This sale includes more than a thousand of these drawings, historically accurate and well executed, and admirably adapted for the extra-illustration of Mr. Lossing's works and American histories generally. More than 100 drawings illustrate the Field Book of the Revolution, nearly 200 illustrate the Field Book of the War of 1812, 164 relate to the Civil War, 165 are the originals used to illustrate Mr. Lossing's admirable work on the Hudson River, and there are hundreds of miscellaneous portraits and views. No other collection of this character exists. Mr. Lossing wrote on the Revolution at a time when soldiers in that struggle were living, and could act as his guides on battlefields and give their personal recollections of great events, and his accuracy as a writer and an artist has never been questioned.

In addition to the drawings about 20,000 pages of Mr. Lossing's Original Manuscripts are also offered. Among these are his Field Book of the Revolution, Cyclopedia of United States History, History of New York City, Our Country, Mary and Martha Washington, History of the State of New York, Eminent Americans, and the American Centenary. These works, which have long been standard, will continue to have a permanent place in American historical literature, and the original manuscripts are worthy of the most careful preservation in public or private libraries.

Among the material consigned by various owners are two original sepia drawings by F. O. C. Darley, highly finished and beautiful pictures illustrating Indian life on the plains; a book from Washington's library; very important historical

letters by Silas Deane regarding a canal in the north; interesting Lincoln material, including several autographs; valuable bibliographies; a collected set of the writings of Captain Mahan in beautiful bindings; the act to incorporate the City of Brooklyn, 1825; two Saur imprints; a complete set of the Thomas Bray Publications; rare books on the Indians, including Schoolcraft's monumental work and two copies of McKenney and Hall's Indian Tribes with the colored plates; the original Petition of American loyalists to George III; scarce local histories, and a large number of books on the history of the Far West and the States of the Pacific Coast, including among the many California items Anderson's Handbook and Map of the Gold Regions.

Among the excessively rare items of Americana which are of the highest interest to all collectors are the following:

The First Edition of Horsmanden's Negro Plot, New York: 1744; the first American Law Book—Abstract of the Lawes of New England, London: 1641; William Smith's "Brief View" and other books and pamphlets relating to Pennsylvania and Ohio at the beginning of the old French War; five pamphlets and leaflets regarding the organization and proceedings of the Ohio Company which are practically unknown to bibliographers; an edition of the New England Primer (Philadelphia: 1773) which is also unrecorded; Van Der Donck's Vertoogh Van Nieu-Neder-Land, 1650, a large and fine copy, and the ORIGINAL AUTOGRAPH MAP of the Braddock Expedition, drawn by Christopher Gist and signed by him, THE ONLY KNOWN CONTEMPORARY MAP, and an historical document of very great importance.

BRADDOCK'S EXPEDITION.

Original Autograph Map by Christopher Gist.

103. "THE ROUTE OF THE ARMY UNDER THE COMMAND OF GEN. BRADDOCK TO THE PLACE OF THEIR DEFEAT, LAID DOWN BY CHRISTOPHER GIST."

Manuscript Map in the Autograph of Christopher Gist, with this heading. Measures $13\frac{3}{4} \times 11$ inches; marked with compass points, scale of miles, a list of the camping points of the army between Fort Cumberland and Fort Duquesne [Pittsburg], with the number of miles traversed between each camp, and remarks by the compiler. The route of the army across the rivers, mountains, and creeks shown in a red dotted line, the camps by a cross. Gist's scouting reconnaissance to Fort Duquesne is similarly marked.

A map of extraordinary interest, being THE ONLY KNOWN CONTEMPORARY MAP OF THE ROUTE OF BRADDOCK'S EXPEDITION, BY ONE CONCERNED IN IT, and who was personally acquainted with the country traversed. So far as we are aware the only other known map drawn by Gist is in the British Museum, made for the Ohio Company and showing in a rough and much reduced scale the country lying between the Alleghany Mountains and the shores of Lake Erie.

Modern accounts of Braddock's Expedition and defeat are based mainly on the Journal written by Capt. Orme for the British Government, and with but few differences his narrative agrees with the details shown in Gist's map. The divergences are no doubt due to the fact that Orme, who was badly wounded in the battle, wrote from recollection some time after his return to England. The history of the expedition can now be rewritten in a more correct historical manner from this newly found map of Gist's in connection with Orme's narrative, and the map of the expedition constructed from Orme's narrative and published by the Pennsylvania Historical Society will now be subject to revision.

The divergence of the two records begins at Halt No. 16, "Lick" (or Salt Lick) Camp. Following Gist, the next two halts are the 17th, marked "Camp 3 miles from the Lick," and the 18th, "Monacatootha Camp," six miles farther, thus making a distance of nine miles between the two halts, No. 16

and No. 18. Orme relates but one camp, "Monacatootha," after 'Salt Lick' and the distance six miles.

According to the Pennsylvania Society's Map, "Monacatootha Camp" was the extremity of the direct north advance, the army turning there towards the west. Gist makes this limit a camp two miles further north, the name of which is probably Brush Creek.

The name of the 20th camp, never before given, (modern narratives give but nineteen), is marked by Gist "Head Sugar Creek," a distance of eight miles from the preceding camp.

Gist confirms other accounts in marking the burial place of Gen. Braddock: "Camp 1 Mile west great Meadows, near ye Gen'l Buri'd."

Orme mentions in his Journal that a captain and about ninety volunteers left the army at Great Meadows, proceeding directly to the Monongahela, where they destroyed French boats and provisions, but fails to give the name. This omission is supplied by Gist, in marking the route of the party.

"The red lines from No. 10 is Capt. Dobson's Route to the mouth of the Red Stone Creek to Destroy the French Barks and Provisions and then joyn'd the Army at Gist's house, No. 11."

In addition to the value of this newly found map by Gist as a record of the exact route of the expedition is its value in giving local names apparently well known to Gist and the pioneers of that region, but differing from those in Orme's Journal. The following examples show the nomenclature as given by Gist and by Sargent in his narrative based on Orme's Journal:

	GIST.	SARGENT.
Camp 1	Grove Camp	Spendelow
Camp 2	Georges Creek	Martin's Plantation
Camp 5	Laurel Run	West side of the Little Crossing

and there are other variations.

Christopher Gist, the author of the map, is well known as one of the pioneers of the Ohio country and was employed by the Ohio Company in 1750 and 1751 in exploring the territory. His Journals are the foundation for all historical accounts of the trip to the Ohio country. He was Washington's guide on his famous mission to the French in 1753. 'With two of his sons, Nathaniel and Thomas, he accompanied General Braddock as scout and guide, and fought in the battle. After Braddock's defeat he raised a company of scouts in Virginia and Maryland to prevent Indian forays on the border, being then called Captain Gist. He died in the summer of 1759.

We can find no record of the sale of anything autographic by Christopher Gist.

Dr. Thomas L. Emmett, whose unrivalled collection of American autographic material is now in the New York Public Library, could secure only a receipt signed "Chris Gist." This great pioneer, so little known and yet filling so important a part in the early history of Pennsylvania and Ohio, was the ancestor of a long line of men who have filled many important positions in the country's history.

Gist is deserving of great fame for having been the mentor and guide of Washington, who came under his tutelage when he was only 23. Gist had great influence over Washington and undoubtedly helped to shape the young patriot's career.

Washington Irving devotes a considerable part of volume one of his "Life of George Washington" to Gist.

All of the above documents are in the handwriting of Silas Deane and together they form a very interesting chapter in American history. Deane did valuable work for his country during the Revolution, but he was charged by his enemies with extravagance while in France, and his later years were spent in England in poverty and unmerited disgrace.

In the documents described above he attempts to show the importance of Lake Champlain, and advises the cutting of a canal, with the object of dividing the interests of the Northern States from those of the Southern so that "*the Northern parts of New England & of New York will become averse to a rupture with Great Britain. Should the other States want war, by the canal their supplies could be cut off & their trade ruined.*"

AN EXCESSIVELY RARE VOLUME EMBRACING PRACTICALLY ALL OF IMPORTANCE PRINTED IN REGARD TO THE FOUNDING AND EARLY AFFAIRS OF THE OHIO COMPANY, SHOWING THE EXPLOITATION AND SUCCESS OF THIS COMPANY IN THE FIRST ATTEMPT AT PERMANENT SETTLEMENT OF OHIO.

Following is a list of the different items, each supplementing the other:

1. Articles of an Association by the Name of the Ohio Company. 12 pp. including 6 for names. Printed at Worcester, by Isaiah Thomas, 1786.

This first "Article" is of itself of the utmost importance and interest. It bears on the title the stamped name of Winthrop Sargent, first Secretary of the Company, and on the cover the following in his autograph: "*W. Sargent's Subscription Book. A Cross over the names thus X denotes Payment.*" Six leaves at the end, headed "Subscribers' Names," are filled with a MS. list of names and the number of shares credited to them, the whole aggregating 136 shares at a thousand dollars a share. Winthrop Sargent was appointed Governor of the company and later Governor of Mississippi Territory.

This, the second publication concerning the Ohio company, embraces all the "Articles" appearing in the above and in addition the reports of a Committee for July 23, 1787, and August 29 and 30, 1787. By an error of the binder this has been bound between pp. 14 and 15 of the above item. It is a separate leaflet and was published separately. (See Evans No. 20604.)

4. At a Meeting of the Directors and Agents of the Ohio Company, at Mr. Brackett's Tavern, the 21st of November, and continued by adjournment to the twenty-second . . . [continued] November 23, for the purpose of carrying into

effect the surveys, and other business, of the Ohio Company; as agreed upon by the Directors, and Agents, at their meetings of the 29th of August last. 4 pp.

The author in his preface addressed to Henry Tucker (Governor of Bermuda) says, "I am in some measure indebted for its plan to Dr. Goldsmith's Deserted Village As it is an American production I flatter myself with some expectation of partiality from the Western World." The production itself falls little short of a parody on Goldsmith's poem. It contains a prefatory sonnet, "To the author," by S. Henley, Prof. in the College at Williamsburg.
